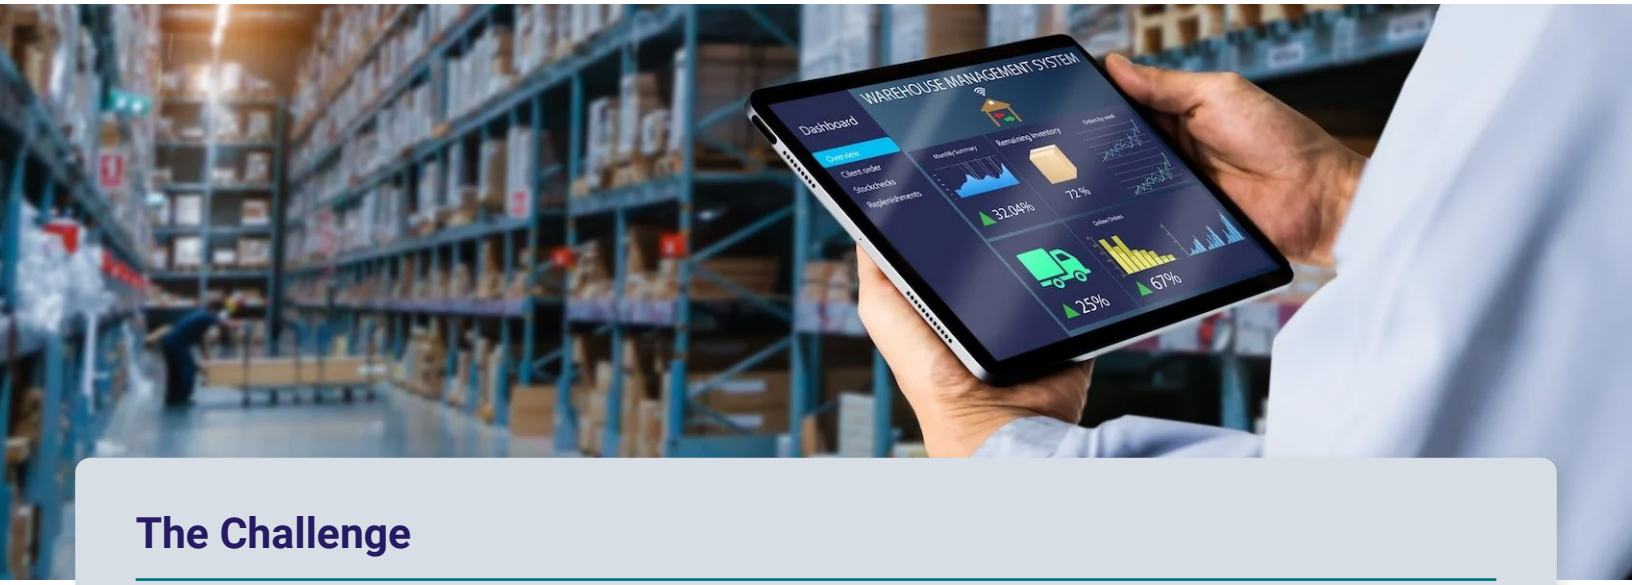
APPLIED Automation



The Challenge

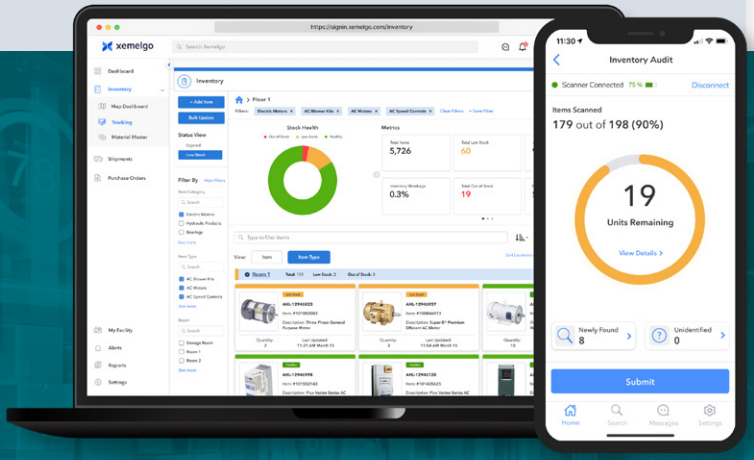
In industrial operations, lack of inventory control can cost thousands of dollars:

- Stop wasting hours hunting for parts, find what you need instantly.
- Eliminate costly line stoppages caused by missing parts.
- End error-prone counts and replenishment delays.
- Say goodbye to lost parts, excess stock, and wasted capital.

Our Solution

With RFID Smart Inventory Management, every asset, spare part, and consumable is automatically tracked.

RFID tags and readers update the cloud in real-time, providing complete visibility and control of your inventory.



Always know what you have, where it is, and when you need it.

$2.5M cost avoidance from validated labor savings

APPLIED Automation™

How It Works

Simple, Automated, Powerful:

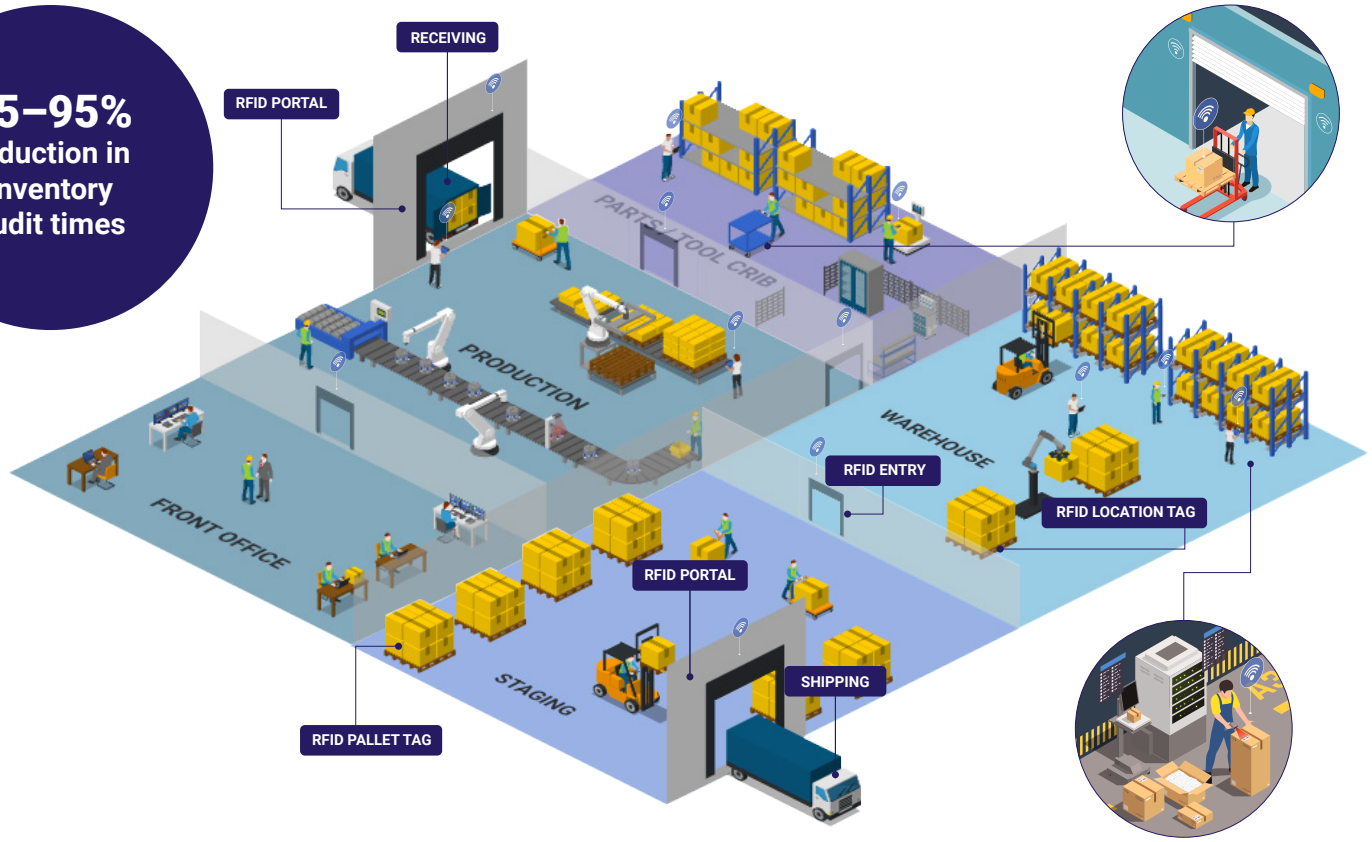
Tag
Apply RFID tags to the items you want to track.

Detect
Readers capture every tag automatically.

Update
The cloud displays real-time location and status.

Access
View insights anytime, anywhere on any device.

85–95% reduction in inventory audit times



Immediate Benefits

- Cycle counts in minutes, not hours.
- Track thousands of items in real time.
- Cut inventory losses by up to 90%.
- Save hundreds of labor hours every year.
- 24/7 visibility that pays for itself in months.

APPLIED Automation™

Grow your operations with Smart Inventory

Efficiency
No more downtime. Automate tracking End-to-End.

Control
Always know where every part is.

Savings
Slash costs by reducing waste & stockouts.

Value
ROI you can measure in months, not years.

Use Cases

Manufacturing
Spare parts & MRO control.

Warehousing
Real-time, automated inventory accuracy.

Production
Track work-in-process orders with confidence.

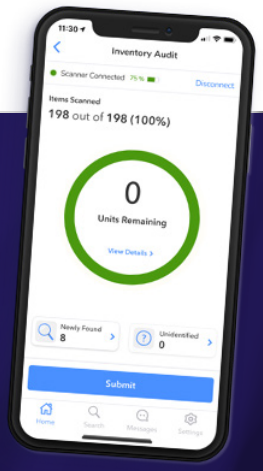
OEM & Multi-Site Operations
End-to-end visibility across multiple sites.

Proven Results

Companies adopting RFID Smart Inventory Management report:

- **Cycle Counts in minutes, not hours.**
- **Thousands of items tracked in real time.**
- **Lower costs by reducing errors & losses.**
- **Compliance simplified, efficiency unlocked.**

$2M excess inventory savings realized in just 3 months



Your Inventory Should Work as Hard as You Do. Let's Make It Smart.
